

SKANSKA

Q3 2016

Press release, October 28, 2016, 7:30 a.m. CET

We build for a better society.
BoKlok Lingonriset, Huddinge, Sweden

Nine month report, January–September 2016

Highlights

- Revenue amounted to SEK 109.1 billion (111.7); adjusted for currency effects, revenue was unchanged.
- Operating income amounted to SEK 4.9 billion (3.4); adjusted for currency effects, operating income increased by 45 percent.
- Earnings per share increased by 60 percent to SEK 9.30 (5.81).
- Operating cash flow from operations amounted to SEK –2.5 billion (–1.8).
- Operating net financial assets totaled SEK 9.2 billion (Jun. 30, 2016: 9.4).
- Order bookings in Construction amounted to SEK 130.6 billion (92.2); adjusted for currency effects, order bookings increased by 45 percent. The order backlog amounted to SEK 191.6 billion (Jun. 30, 2016: 177.9).
- Operating income in Construction amounted to SEK 2.3 billion (2.5), corresponding to an operating margin of 2.3 percent (2.4); adjusted for currency effects, operating income decreased by 6 percent.
- Operating income in Project Development amounted to SEK 3.3 billion (1.9); adjusted for currency effects, operating income increased by 66 percent.
- Return on capital employed in Project Development was 15.8 percent (14.6).
- Net investments in Project Development amounted to SEK –0.3 billion (–0.5).

Operating cash flow from operations

Comments from Skanska's President and CEO Johan Karlström:

When comparing the first nine months of 2016 with the same period in 2015, we are delivering unchanged revenue in local currency, a significant increase in operating income and strong order bookings. The increased operating income is due to the continuously strong performance in Project Development. With a favorable market outlook, diversified development

portfolio, strong balance sheet and additional investments in Project Development, we expect this development to continue.

Performance in our **Construction** stream is stable in all units except for Poland, and we also have a continued challenging situation in USA Civil. As communicated earlier, the market in Poland is being negatively impacted by delays in the allocation of designated EU funds. This has led to a rapid decline in small to medium sized projects. During the third quarter we restructured and rightsized the Polish organization to achieve an adequate cost structure in relation to revenue. Unfortunately, this has led to more than one thousand employees leaving the company. This, together with weak performance in certain projects, is having a negative impact on the Polish operating margin. In the long term, the Polish market is expected to be robust as EU funds are in place. Profitability in USA Civil continues to be affected by the previously communicated design changes, lower revenue and increased S&A costs. We are working intensely to reach agreements with the clients about the design changes, but the processes are lengthy.

Order bookings were strong for the first nine months of 2016. In the U.S. a very strong second quarter was followed by a strong third quarter. As expected, order bookings in the UK picked up during the third quarter and we are maintaining a positive outlook for the remainder of the year. In the UK, Brexit will likely impact the non-residential building sector negatively, although the civil sector will improve as a result of increased investments to stimulate the British economy.

The **Residential Development** stream is maintaining its strong performance. The market is good in all Nordic countries and especially strong in Sweden, where we continue to see good affordability levels. The Swedish housing market has now absorbed the new mortgage amortization requirements implemented in June, as well as the initial uncertainty relating to Brexit, both of which impacted consumer confidence, which is a very important factor affecting willingness to buy a new home. In general we expect to see a continued strong residential development market going forward.

In our **Commercial Property Development** stream the divestment gains in 2016 are approaching the high level achieved for the full year 2015. During the year we have delivered divestments in the U.S. and the Nordics. Given our portfolio's size, diversification and continuous investments into it, we are expecting to see divestment opportunities in a strong leasing market and a low yield environment going forward.

In the **Infrastructure Development** stream we continue to bid for new projects. Market activity is high in the U.S. and we are also seeing positive signals in the Norwegian market. In October we announced the signing of a sales and purchase agreement for our ownership in the M25 orbital motorway in London, UK. We expect to report a divestment amounting to about SEK 2.9 billion in the first quarter of 2017. There is no doubt that the current low yield environment is having a positive impact on our portfolio valuation.

In summarizing our position and performance, I would like to point out that even though a majority of our Construction units are performing well, we are not satisfied with the performance in the Construction stream and we are working hard to improve the situation. Performance is, however, strong in our Project Development streams, and a solid development portfolio, strong balance sheet and very good market conditions are enabling us to continue investing and delivering strong results.

BoKlok Lingonriset in Huddinge, Sweden, a housing concept developed by Skanska and IKEA, providing affordable homes for everyone. This is a great example of synergies that is being created in Skanska, both financially and operationally. It involves both Skanska's Residential Development stream and Construction stream. The free working capital in Construction combined with the profits generated by the Group enables the financing of investments in development projects such as Lingonriset, which in turn generates an internal construction contract to the Construction stream. In close cooperation between Development and Construction a cost efficient process has been developed, and at the end of the cycle it also generates a development gain at divestment.

Market outlook, next 12 months

Minor revisions to the market outlook during the quarter

- Weaker outlook compared to previous quarter.
- Unchanged outlook compared to previous quarter.
- Improved outlook compared to previous quarter.
- ↕ Very strong market coming 12m
- ↔ Strong market coming 12m
- ↔ Stable market coming 12m
- ↘ Weak market coming 12m
- ↘ Very weak market coming 12m

Construction

The overall construction market outlook continues to be positive. The non-residential, residential building and civil markets in Sweden are strong although the landscape is competitive. In Norway, the outlook for the civil market remains positive but with significant and increasing competition in new bids. The non-residential market is improving due to increased public investments, while the residential building market is stable, with the exception of certain regions that are dependent on the energy sector. The overall market situation in Finland remains weak, with signs of the residential building market improving. The civil market remains strong in the UK, whilst the uncertainty in the non-residential building market post Brexit continues. The civil market in Poland and Czech Republic are further impacted by delays in the allocation of designated EU funds. In the U.S. the market for large and complex civil construction projects remains good, although competition is intense. The building construction market is experiencing a positive development in the aviation, education, mission critical and life science and healthcare sectors.

Residential Development

The Swedish residential market is still strong and the new amortization requirements has led to a more balanced market. The Norwegian market is stable but is being negatively affected by low oil prices in certain regions that are dependent on the energy sector. There are signs of improvement in the Finnish market. In Central Europe the market is solid, with high transaction volumes and slightly higher sales prices. Common to all home markets, except for Finland, is the challenge to acquire and develop land due to increasing prices and long permitting processes.

Gjønneshagen, Oslo, Norway.

Commercial Property Development

Vacancy rates for office space in most of the Nordic and Central European cities where Skanska has operations are stable. Vacancy rates are low in Sweden in particular. Demand for office space is strong in Poland and continues to improve in other parts of Central Europe. In the U.S., demand from tenants continues to improve in Washington D.C. and remains strong in Boston and Seattle, while demand in Houston is weaker due to low oil prices. Modern properties with high quality tenants are in demand from property investors, resulting in attractive valuations for these properties. In Sweden there is very strong demand from investors in newly developed properties. Investor appetite remains strong in the other Nordic countries and in Central Europe as well, especially in the major cities. Investor appetite is also strong in the U.S. In all home markets, except for Finland, there is a challenge to acquire and develop land due to increasing prices and long permitting processes.

Infrastructure Development

The Public Private Partnership (PPP) market in the U.S. is strong, albeit with considerable competition. The market in Norway is showing signs of improvement. In the other markets the outlook for new PPP projects remains weak.

3 Earnings for the period attributable to equity holders divided by the average number of shares outstanding.

Changes and currency rate effects

	Jan-Sep 2016 / Jan-Sep 2015		
	Change in SEK	Change in local currency	Currency effect
Revenue	-2%	0%	-2%
Operating income	44%	45%	-1%

Revenue decreased by 2 percent and amounted to SEK 109.1 billion (111.7); adjusted for currency effects, revenue was unchanged.

Operating income increased by 44 percent and amounted to SEK 4.9 billion (3.4); adjusted for currency effects, operating income increased by 45 percent. The increase is mainly attributable to the Commercial Property Development stream. Currency effects had a negative impact on operating income and amounted to SEK -33 M. The comparable period includes writedowns in the U.S. Construction operations amounting to SEK 750 M.

Revenue per segment, January–September 2016

Operating income per segment, January–September 2016

The line chart above shows the revenue and operating income development over the past five years. The operating income from the second quarter of 2011 until the first quarter of 2012 includes a profit of SEK 4.5 billion from the sale of Autopista Central in Chile.

Central expenses totaled SEK -709 M (-955). As of January 1, 2013, the Latin American operation is included in Central. In the comparable period costs amounting to SEK 0.3 billion incurred in connection with closing down the Latin American operations. Skanska has no ongoing projects in Latin America. The elimination of gains in Intra-Group projects amounted to SEK 44 M (-49).

Net financial items amounted to SEK -58 M (-371). Lower interest costs and the absence of negative currency effects are the main reasons for the decrease. Non-recurring costs impacted the first quarter of 2016 by SEK -24 M, stemming from negative change in market value on interest rate swaps and in the comparable period by SEK -80 M, relating to a currency hedge closed prior to maturity.

For a specification of net financial items according to IFRS, see page 21.

Taxes for the period amounted to SEK -1,018 M (-635), corresponding to an effective tax rate of about 21 (21) percent.

Cash flow

Cash flow for the period	-7,431	-6,461	15	-1,478	-709	108

Operating cash flow from operations amounted to SEK -2,482 M (-1,807). Net investments totaled SEK -1,355 M (-1,653). Change in working capital impacted cash flow negatively in the amount of SEK -1,955 M (-1,000), and is the main reason for the increase in negative operating cash flow from operations compared to the first nine months of 2015.

Taxes paid in business operations amounted to SEK -979 M (-834).

Commercial properties sold but not yet transferred will have a positive effect on cash flow of about SEK 2.4 billion, of which SEK 0.8 billion in the final quarter of 2016.

Free working capital in Construction

The free working capital in Construction amounted to SEK 18.9 billion (16.3) with the average free working capital in relation to revenue in Construction in the past 12 months at 13.6 percent. The free working capital in construction has increased due to improved cash flow profile in a number of projects and the maintained focus on cash generation in the Construction stream. Cash flow due to changes in working capital in Construction amounted to SEK -2,115 M (-2,259), a normal seasonal pattern.

Oculus, World Trade Center, New York, U.S.

Other changes, interest-bearing net receivables/net debt	-253	-241	-28	-87	-265
Change in interest-bearing net receivables/net debt	-9,527	-4,074	-2,747	533	5,619
Closing balance interest-bearing net receivables(+)/net debt(-)	-3,210	-3,376	-3,210	-3,376	6,317
Pension liability, net	7,099	4,135	7,099	4,135	3,740
Loans to housing co-ops	5,354	2,882	5,354	2,882	3,761
Closing balance operating net financial assets(+)/liabilities(-)	9,243	3,641	9,243	3,641	13,818

The operating net financial assets amounted to SEK 9.2 billion (Jun. 30, 2016: 9.4). The interest-bearing net debt amounted to SEK -3.2 billion (Jun. 30, 2016: -0.5). The increase is mainly attributable to an increase in the net pension liability. Proceeds from properties sold but not yet transferred will have a positive effect of about SEK 2.4 billion, of which SEK 0.8 billion in the final quarter of 2016.

Skanska's committed unutilized credit facilities of SEK 5.7 billion, in combination with operating net financial assets of SEK 9.2 billion, ensure a strong financial capacity for the Group. Loans to housing co-ops totaled SEK 5.4 billion (Jun. 30, 2016: 5.0) and the net pension liabilities totaled SEK 7.1 billion (Jun. 30, 2016: 4.9), an increase by SEK 2.2 billion mainly due to lower discount rates in the UK and Sweden. At the end of the quarter, capital employed amounted to SEK 38.7 billion (Jun. 30, 2016: 36.7).

Equity

Changes in equity

SEK M	Jan-Sep 2016	Jan-Sep 2015	Jul-Sep 2016	Jul-Sep 2015	Jan-Dec 2015
Opening balance	24,206	21,405	21,938	21,057	21,405
Dividend to shareholders	-3,075	-2,775	0	0	-2,775
Other changes in equity not included in total comprehensive income for the year	-447	-158	-62	-91	-192
Profit for the period	3,417	2,209	816	554	4,791
Other comprehensive income					
Translation differences	932	434	673	17	47
Effects of remeasurements of pensions	-3,230	232	-2,124	69	610
Effects of cash flow hedges	-582	93	-20	-166	320
Closing balance	21,221	21,440	21,221	21,440	24,206

Adjusted equity, less standard tax of 10 percent

The Group's equity amounted to SEK 21.2 billion (21.4), the equity/assets ratio was 21.4 percent (22.7) and the net debt/equity ratio amounted to 0.2 (0.2).

The effects of remeasurements of pensions amounted to SEK -3,230 M (232). The change is mainly related to lower discount rates in the UK and Sweden. The effects of cash flow hedges, SEK -582 M (93) are mainly related to changes in the value of interest-rate swaps attributable to Infrastructure Development projects.

Translation differences amounted to SEK 932 M (434). As of December 31, 2015, Skanska no longer hedges its equity in foreign subsidiaries against the Swedish krona.

The unrealized surplus values less standard tax in the development units amounted to SEK 10.9 billion (Jun. 30, 2016: 10.5), of which SEK 0.5 billion is realized according to segment reporting.

Investments and divestments

Investments and divestments

The Group's investments amounted to SEK –14,024 M (–12,553). Divestments amounted to SEK 13,007 M (11,268) and the Group's net investments amounted to SEK –1,017 M (–1,285).

In Construction, investments totaled SEK –1,280 M (–1,227). The investments were mainly related to property, plant and equipment for the Group's own production. Net investments in Construction amounted to SEK –792 M (–1,024). Depreciation of property, plant and equipment amounted to SEK –943 M (–1,026).

In Residential Development, investments totaled SEK –6,197 M (–5,070), of which about SEK –1,356 M (–1,262) relates to the acquisition of land corresponding to 4,019 building rights. Divestments amounted to SEK 5,054 M (6,937). Net investments in Residential Development amounted to SEK –1,143 M (1,867).

In Commercial Property Development, investments totaled SEK –5,681 M (–5,947) of which SEK –1,141 M (–992) related to investments in new land. Divestments amounted to SEK 7,282 M (3,692). Net divestments in Commercial Property Development amounted to SEK 1,601 M (–2,255).

Investments in Infrastructure Development amounted to SEK –760 M (–144). Divestments amounted to SEK 15 M (11).

Construction – Order situation

Order backlog, revenue and order bookings

Order bookings and order backlog in Construction

SEK bn	Jan-Sep 2016	Jan-Sep 2015	Jul-Sep 2016	Jul-Sep 2015
Order bookings	130.6	92.2	46.4	33.9
Order backlog ¹	191.6	167.5	-	-

¹ Refers to the end of each period.

Order bookings amounted to SEK 130.6 billion (92.2); adjusted for currency effects, order bookings increased by 45 percent. A majority of the business units had higher order bookings than revenue in the first nine months. On a rolling 12 months basis the book-to-build ratio was 117 percent (Jun. 30, 2016: 107). Order bookings in the U.S. business were especially strong, driven by the LaGuardia project.

At the end of the quarter, the order backlog amounted to SEK 191.6 billion, compared to 177.9 billion at the end of the previous quarter. The order backlog corresponds to about 17 months of production (Jun. 30, 2016: 15).

Changes and currency rate effects

	Jan-Sep 2016 / Jan-Sep 2015		
	Change in SEK	Change in local currency	Currency effect
Revenue	-3%	-1%	-2%
Operating income	-8%	-6%	-2%

Revenue in the Construction business stream decreased by 3 percent and amounted to SEK 99.2 billion (102.7); adjusted for currency effects, the revenue decreased by 1 percent. Operating income amounted to SEK 2,282 M (2,476); adjusted for currency effects, operating income decreased by 6 percent. The operating margin was 2.3 percent (2.4). The comparable period includes writedowns in the U.S. Construction operations amounting to SEK 750 M.

The majority of the Construction units had a stable performance but as communicated earlier the market in Poland is negatively impacted by delays in the allocation of designated EU funds. This has led to a rapid decrease of small to medium sized projects. During the third quarter the Polish organization has been restructured and rightsized in order to achieve an adequate cost structure in relation to revenue. More than one thousand employees have been laid-off. This, together with weak performance in certain projects, affects the Polish operating margin negatively. Long-term, the Polish market is viewed as being robust as EU funds are in place.

The profitability in USA Civil continues to be affected by the previous design changes, lower revenue and increased S&A costs as communicated earlier. The intense work to reach agreements with the clients about the design changes continues, but the processes are lengthy.

Hospital building, Karolinska University Hospital, Huddinge, Sweden.

Residential Development

Revenue and operating margin, rolling 12 months

Revenue and earnings

SEK M	Jan-Sep 2016	Jan-Sep 2015	Change, %	Jul-Sep 2016	Jul-Sep 2015	Change, %
Revenue	8,735	9,101	-4	2,596	2,459	6

Return on capital employed, % ¹	14.2	12.7		-	-	

¹ Rolling 12 months. See definition on page 18.

Revenue in the Residential Development business stream amounted to SEK 8,735 M (9,101). The number of homes sold totaled 2,978 (3,035) in the first nine months of 2016. Operating income amounted to SEK 925 M (848). The operating margin increased to 10.6 percent (9.3) and was especially strong in Sweden. In Central Europe a non-recurring cost related to adjustment of land value was taken in the second quarter.

The return on capital employed increased to 14.2 percent (12.7), partially due to the effects of strong volumes in a rising market where the build-up of capital employed is lagging somewhat but will catch up during the remainder of 2016.

Homes sold and started, rolling 12 months

Homes sold and started

	Jan-Sep 2016	Jan-Sep 2015
Homes sold	2,978	3,035
Homes started	2,926	3,051

Homes under construction and unsold

Homes under construction and unsold

	Sep 30, 2016	Sep 30, 2015	Dec 31, 2015
Homes under construction	6,680	5,589	5,689
of which sold, %	79	75	76
Completed unsold, number of homes	174	308	237

At the end of the quarter, there were 6,680 homes (Jun. 30, 2016: 6,424) under construction. Of these, 79 percent (Jun. 30, 2016: 78) were sold. The number of completed, unsold homes totaled 174 (Jun. 30, 2016: 190) and most of these homes are in Finland and Norway. Efforts to reduce the number of unsold completed units in Finland and Norway remain. In the first nine months of 2016, construction was started on 2,926 homes (3,051).

Breakdown of carrying amounts

SEK M	Sep 30, 2016	Sep 30, 2015	Dec 31, 2015
Completed projects	847	1,270	934
Ongoing projects	6,112	3,684	4,329
Undeveloped land and development properties	5,799	5,399	5,107
Total	12,758	10,353	10,370

A breakdown of the carrying amounts is presented in the table above. Undeveloped land and development properties amounted to SEK 5.8 billion (Jun. 30, 2016: 5.5), with an estimated market value of around SEK 6.8 billion (Jun. 30, 2016: 6.5). The undeveloped land and development properties correspond to Skanska-owned building rights for 25,500 homes and 520 building rights held by joint ventures. In addition, subject to certain conditions, the business stream has the right to purchase 10,990 building rights.

Commercial Property Development

Revenue and operating income from property divestments

Revenue and earnings

SEK M	Jan-Sep 2016	Jan-Sep 2015	Change, %	Jul-Sep 2016	Jul-Sep 2015	Change, %

Total	19,949	30,775	37,621		
of which carrying amount ⁴	19,013	29,535			
of which completed projects sold according to segment reporting	0	0	0		
of which ongoing projects sold according to segment reporting	1,207	1,820	2,354		

¹ Market value according to appraisal on December 31, 2015. Estimated market value at completion fully leased.

² Skanska's share of total production cost in JVs is SEK 693 M (end of period) and SEK 1,089 M (upon completion).

³ Skanska's share of total production cost in JVs is SEK 896 M end of period and upon completion

⁴ Includes Skanska's total equity investment in JV of SEK 653 M (end of period) and SEK 745 M (upon completion) and tenant improvement and leasing commissions in CDUS of 129 MSEK (Completed projects) and 34 MSEK (Ongoing projects).

Unrealized and realized gains

Leasing

At the end of the quarter, Commercial Property Development had 43 ongoing projects out of which two projects are developed in joint ventures. In the third quarter, five new projects were started, nine projects were completed, of which five were handed over. The 43 ongoing projects represent leasable space of about 689,000 sq m with an occupancy rate of 41 percent, measured in rent. The degree of completion is 42 percent. Their investment value upon completion is expected to total SEK 18.7 billion, with an estimated market value of SEK 23.5 billion upon completion.

Of the ongoing projects, eight were divested according to segment reporting. These projects represent an investment value upon completion of SEK 1.8 billion, with a market value of SEK 2.4 billion.

The market value of completed projects, excluding properties divested but not yet transferred to the buyers, was SEK 6.6 billion. The occupancy rate measured in rent totaled 63 percent.

At the end of the quarter the unrealized gains, excluding properties divested but not yet transferred to the buyers, totaled SEK 6.4 billion divided by SEK 4.3 billion in ongoing projects, SEK 1.7 billion in completed projects and SEK 0.4 billion in undeveloped land and development properties. Realized gains accumulated to SEK 2.4 billion (1.1) and on a rolling 12 months basis, SEK 3.9 billion.

Accumulated eliminations of intra-Group project gains amounted to SEK 296 M at the end of the period. These eliminations are released at Group level as each project is divested.

During the first nine months new leases were signed for 232,000 sq m (241,000). Notable lease contracts during the quarter include the lease for 8,600 sq m with Merck Sharp & Dohme (MSD) in Prague.

Infrastructure Development

Revenue and earnings

SEK M	Jan-Sep 2016	Jan-Sep 2015	Change, %	Jul-Sep 2016	Jul-Sep 2015	Change, %
Revenue	202	77	162	28	23	22
Gross income	55	-87	-	-29	-27	7
Selling and administrative expenses	-113	-112	1	-27	-35	-23
Income from joint ventures and associated companies	401	604	-34	182	215	-15
Operating income	343	405	-15	126	153	-18
of which gains from divestments of shares in projects	0	0	-	0	0	-
Return on capital employed, % ¹	16.6	23.1				

¹ Rolling 12 months. See definition on page 18.

The operating income for the Infrastructure Development business stream totaled SEK 343 M (405). The return on capital employed decreased to 16.6 percent (23.1).

The net present value of projects at the end of the period increased to SEK 5.7 billion (Dec. 31, 2015: 4.8), mainly driven by increased investments and time value. The remaining investment obligations relating to ongoing Infrastructure Development projects amounted to about SEK -0.8 billion (Dec. 31, 2015: -1.3).

Unrealized development gains

SEK bn	Sep 30, 2016	Sep 30, 2015	Dec 31, 2015
Present value of cash flow from projects	6.5	7.2	6.1
Present value of remaining investments	-0.8	-1.3	-1.3
Net present value of projects	5.7	5.9	4.8
Carrying amount before Cash flow hedge / Carrying amount	-3.8	-3.7	-3.1
Unrealized development gain	1.9	2.2	1.7
Cash flow hedge	2.1	1.8	1.6
Effect in unrealized equity¹	4.0	4.0	3.3

¹ Tax effects not included.

Changes in net present value

At the end of the period, the carrying amount of shares, participations, subordinated receivables and concessions in Infrastructure Development before cash-flow hedges was SEK 3.8 billion (Dec. 31, 2015: 3.1). At the end of the quarter, unrealized development gains totaled about SEK 1.9 billion (Dec. 31, 2015: 1.7).

Cash flow hedges, for which the change in value is recognized as other comprehensive income, reduced the carrying amount and thereby also equity, by an amount of SEK 2.1 billion (Dec. 31, 2015: 1.6).

Estimated present value of cash flow from projects per geographic area

New Karolinska Solna, Stockholm, Sweden.

Personnel

During the period, the average number of employees in the Group was 43,060 (53,366). The decrease is mainly attributable to the closing down of the operations in Latin America. At the end of the quarter the number of employees amounted to 42,128 (Jun. 30, 2016: 43,342). The decrease is mainly attributable to adjustments in the Polish organization.

Transactions with related parties

For the nature and extent of transactions with related parties, see the 2015 Annual Report.

Material risks and uncertainties

The Construction and Project Development business involves a considerable amount of risk management. Almost every project is unique. Size, shape, the environment – everything is different for each new assignment. The Construction and Project Development business differs in this way from typical manufacturing, which operates in permanent facilities with long production runs.

In Skanska's operations, there are many different types of risks. Identifying, managing and pricing these risks is of fundamental importance to the Group's profitability. Risks are normally of a technical, legal and financial nature, but political, ethical, social and environmental considerations are also part of assessing potential risks.

To ensure a systematic and uniform assessment of risks and opportunities, the entire Skanska Group uses a shared procedure for identifying and managing risks. With the aid of this model, Skanska evaluates projects continuously – from preparation of tenders to completion of assignments.

From time to time, disputes arise with customers about contractual terms related to both ongoing and completed projects. Their outcomes are often difficult to predict.

For further information about risks and a description of key estimates and judgments, see the Report of the Directors and Notes 2 and 6 in the 2015 Annual Report, as well as the section above on market outlook.

Update on Skanska Brasil and Czech Republic

As announced in March 2015, Skanska Brasil became involved in investigations by the Brazilian Comptroller General (CGU) and the Administrative Council of Economic Defense (CADE). These investigations focused on corruption and competition matters in relation to certain Petrobras projects. In late 2015, the two entities initiated administrative proceedings against Skanska Brasil and twenty other companies. In June 2016, the CGU (now known as the Ministry of Transparency, Inspection and Control) excluded Skanska from public procurement for a period of no less than 2 years. The CADE proceeding remains in its early stages and is expected to carry on for a number of years.

Other authorities have also commenced proceedings arising from the same investigation. As Skanska announced in April 2016, the Brazilian Federal Government (AGU) brought a civil suit against seven companies, including Skanska Brasil, as well as seven individuals unrelated to Skanska. That proceeding focused on allegedly improper payments by one of Skanska Brasil's joint venture partners. The Judge has decided to reject the claim against Skanska Brasil. In the case going forward, one of our joint venture partners will remain defendant in the lawsuit. This decision has been appealed by AGU.

There is considerable uncertainty as to how all of these proceedings will develop and when they will conclude.

In July 2014, and prior to these Brazilian proceedings, Skanska

decided to exit the Latin American market, following several years of financial losses. Skanska replaced the local management in Latin America and appointed qualified personnel from Sweden to direct the closing of the Latin American operations. Skanska has had no ongoing projects in Latin America since March 2016.

Skanska has been informed by the prosecutor in Stockholm that this authority has initiated a preliminary investigation into matters relating to Skanska's businesses in Brazil and the Czech Republic.

Other matters

Repurchase of shares

At the Board meeting on April 6, 2016, the Board resolved to exercise the Annual General Meeting's authorization concerning the repurchase of shares on the following terms: on one or several occasions, but no later than the Annual General Meeting in 2017, not more than 4,000,000 Series B shares in Skanska may be acquired, the aim of which is to secure delivery of shares to participants in Skanska's Employee Ownership Program, Seop (2014 – 2016).

The Board resolved also to exercise the Annual General Meeting's authorization concerning the repurchase of shares on the following terms: on one or several occasions, but no later than the Annual General Meeting in 2017, not more than 1,500,000 Series B shares in Skanska may be acquired, the aim of which is to secure delivery of shares to participants in Skanska's Employee Ownership Program, Seop (2017 – 2019).

Further the Board resolved to exercise the Annual General Meeting's authorization concerning transfer of shares on the following terms: on one or several occasions, but no longer than the Annual General Meeting in 2017, not more than 763,000 Series B shares in Skanska may be transferred, the aim of which is to cover mainly social security costs that may occur in relation to Skanska's Employee Ownership Program, Seop (2011 – 2013) and Seop (2014 – 2016).

Acquisition, or transfer, may only be made on Nasdaq Stockholm within the price interval prevailing at any given time, meaning the interval between the highest purchase price and the lowest selling price. On September 30, Skanska held 10,613,398 Series B shares in its own custody.

Events after the end of the report period

On October 6, Skanska signed a Sale and Purchase Agreement (SPA) for its investment in the M25 motorway in London, UK, for about SEK 2.9 billion. The buyer, Edge Orbital Holdings Limited, is a consortium of institutional investors arranged and advised by Macquarie Capital (Europe) Limited. The transaction is expected to be recorded by Skanska Infrastructure Development in the first quarter of 2017.

Auditors' Review Report concerning this interim report

Introduction

We have reviewed the summary Nine Month Report (interim report) of Skanska AB (publ.) as of 30 September 2016 and the nine-month period then ended. The Board of Directors and the Managing Director are responsible for the preparation and presentation of this interim report in accordance with IAS 34 and the Annual Accounts Act. Our responsibility is to express a conclusion on this interim report based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements ISRE 2410 Review of Interim Financial Information Performed by the Independent Auditor of the Entity. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and other generally accepted auditing practices and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim report is not prepared, in all material respects, for the Group in accordance with IAS 34 and the Annual Accounts Act, and for the Parent Company in accordance with the Annual Accounts Act.

Other information

The review of the interim report as of 30 September 2015 and the nine-month period then ended was performed by another audit firm, which issued an unqualified review opinion dated 28 October 2015. The audit of the annual report for 2015 was audited by the same accounting firm, which issued an unqualified audit opinion dated 4 March 2016.

Accounting principles

For the Group, this interim report has been prepared in compliance with IAS 34, “Interim Financial Reporting,” the Annual Accounts Act and the Securities Market Act. For the Parent Company, the interim report has been prepared in compliance with the Annual Accounts Act and the Securities Market Act, which is pursuant to the Swedish Financial Reporting Board’s Recommendation RFR 2. The accounting principles and assessment methods presented in the Annual Report for 2015 have been applied.

Relation between consolidated operating cash flow statement and consolidated cash flow statement

The difference between the operating cash flow statement and the summary cash flow statement in compliance with IAS 7, “Cash flow Statements”, is presented in the 2015 Annual Report, Note 35.

Segment and IFRS reporting

Skanska’s business streams Construction, Residential Development, Commercial Property Development and Infrastructure Development represent the group’s operating segments. Tables in this report that refer to segment reporting are shown with a shaded background. In certain cases the segment reporting differs from the consolidated results presented in accordance with International Financial Reporting Standards, IFRS.

Construction includes both building construction and civil construction. Revenues and earnings are reported under the percentage of completion (“PoC”) method for both segment and IFRS reporting.

Residential Development develops residential projects for immediate sale. Homes are adapted to selected customer categories. The units are responsible for planning and selling the projects. The related construction assignments are performed by the construction units in

the Construction segment in each market. In the segment reporting Residential Development recognizes revenue and earnings when binding contracts are signed for the sale of homes. In the IFRS reporting revenues are instead recognized when the buyer takes possession of the homes.

Commercial Property Development initiates, develops, leases and divests commercial property projects. In most markets the construction assignments are performed by Skanska’s Construction segment. In the segment reporting Commercial Property Development recognizes revenue and earnings when binding contracts are signed for the sale of the properties. In the IFRS reporting revenues are instead recognized when the buyer takes possession of the property.

Infrastructure Development specializes in identifying, developing and investing in privately financed infrastructure projects, such as highways, hospitals and power-generation plants. The business stream focuses on creating new potential projects, mainly in the markets where the Group has operations. Construction assignments are in most markets performed by Skanska’s Construction segment. Revenues and earnings are reported under the percentage of completion (“PoC”) method for both segment and IFRS reporting.

Joint ventures are reported under the proportional method in the segment reporting of Residential Development, whereas all other streams/operating segments apply the equity method.

Intra-Group pricing between operating segments occurs on market terms.

In 2014, Skanska decided to wind down the E&C part and divest the O&M part of the Latin American operation. As a consequence, starting in the third quarter of 2014, Skanska Latin America is moved from the Construction stream to Central in the segment reporting. For comparison reasons, historical reported numbers were adjusted accordingly from January 1, 2013.

Definitions

For further definitions, see Note 44 in the 2015 Annual Report.

Non-IFRS financial measures

	Definition		Reason for use
			The following measures are used as it is viewed as the best and most accurate way to measure Skanska's operations reflecting our business model and strategy and thus assist investors and management in analyzing trends and performance in Skanska.
Revenue Segment	Revenue segment is the same as revenue IFRS in all streams except for the Residential Development stream and the Commercial Property Development stream, where revenue is recognised for when signing binding agreement for sale of homes and properties. As segment reporting of joint ventures in Residential Development applies the proportional method, revenue segment is affected by this.		Measure revenue generated in current market environment.
Gross income	Revenue minus cost of sales.		Measure profit generated from projects.
Gross margin	Gross income as a percentage of revenue.		Measure profitability in projects.
Selling and admin expenses %	Selling and administrative expenses as a percentage of revenue.		Measure cost efficiency in selling and administrative expenses.
Operating income	Revenue minus cost of sales, selling and administrative expenses and income from joint ventures and associated companies.		Measure profit generated from operations.
Operating income segment	Revenue minus cost of sales, selling and administrative expenses and income from joint ventures and associated companies, according to segment reporting, and where Residential Development applies the proportional method for reporting of joint ventures.		Measure profit generated from operations in current market environment.
Operating income rolling 12 months	Revenue minus cost of sales, selling and administrative expenses and income from joint ventures and associated companies, rolling 12 months.		Measure profit generated from operations.
Operating margin	Operating income as a percentage of revenue.		Measure profitability in operations.
Net financial items	The net of interest income, financial net pension cost, interest expense, capitalized expense, change in fair value and other net financial items.		Measure total net for financial activities.
Income after financial items	Operating income minus net financial items.		Measure profit generated before taxes.
Earnings per share, segment	Profit for the period, segment, attributable to equity holders divided by the average number of shares outstanding		Measure earnings per share, segment
Book-to-build, rolling 12 months	Order bookings divided by construction revenue, rolling 12 months.		Measures to which extent new orders are replacing work put in place.
Unrealized gains, Commercial Property Development (CD)	Market value minus investment value upon completion for ongoing projects, completed projects and land. Excluding projects sold according to segment reporting.		Measure potential realization of future gains in Commercial Property Development.
Capital employed, Group	Total assets minus non-interest-bearing liabilities.		Measure capital usage and efficiency.
Capital employed, Stream	Total assets less tax assets, deposits in Skanska's treasury unit and pension receivable minus non-interest-bearing liabilities excluding tax liabilities. Capitalized interest expense is removed from total assets for the Residential Development and Commercial Property Development segments.		Measure capital usage and efficiency in a Stream.
Capital employed Residential Development (RD) SEK M	Total assets - tax assets - deposits in internal bank - pension receivable - non-interest-bearing liabilities (excluding tax liabilities) - capitalized interest expense	15,251 -288 -78 -17 -4,098 -63 <u>10,707</u>	Measure capital usage and efficiency in Residential Development.
Capital employed Commercial Property Development (CD) SEK M	Total assets - tax assets - deposits in internal bank - pension receivable - non-interest-bearing liabilities (excluding tax liabilities) - capitalized interest expense	20,915 -368 - - -1,870 -160 <u>18,517</u>	Measure capital usage and efficiency in Commercial Property Development.
Capital employed Infrastructure Development (ID) SEK M	Total assets - tax assets - deposits in internal bank - pension receivable - non-interest-bearing liabilities (excluding tax liabilities)	2,555 -231 - - -253 <u>2,071</u>	Measure capital usage and efficiency in Infrastructure Development.

Non-IFRS financial measures	Definition	Reason for use																																																																
Capital employed average	Calculated on the basis of five measuring points; see below.																																																																	
ROCE in Project Development, segment	Adjusted profit (operating income, financial income minus interest income from Skanska's treasury unit (internal bank) and other financial items. For the RD and CD segments, capitalized interest expense is removed from operating income so that the return reflects the unleveraged return) as a percentage of average capital employed. When calculating Roce for Infrastructure Development the financial income minus interest income from Skanska's treasury unit (internal bank) and other financial items are reversed. The average capital employed is adjusted for IAS39 and for tax in our US projects, that are set up as Limited liability companies, non-taxable legal entities.	Measure the performance (profitability and capital efficiency) in Project Development.

About Skanska

Skanska is one of the world’s leading construction and project development companies, focused on selected home markets in the Nordic region, other European countries and North America. Supported by global trends in urbanization and demographics, and by being at the forefront in sustainability, Skanska offers competitive solutions for both simple and the most complex assignments, helping to build a sustainable future for customers and communities.

Skanska’s business model

Internal contracts and cooperation

Operational and financial synergies are, amongst other things, achieved through investments in Project Development generating internal contracts for Skanska’s Construction stream, as well as through the collaboration between Business Units from different markets. Currently, SEK 26.1 billion of Skanska’s total order backlog are contracts involving more than one Business Unit and revenue from internal contracts amounted to SEK 15.6 billion on a rolling 12 months basis end of period.

Revenue from internal contracts amounted to:

Elizabeth River Tunnels, Virginia, U.S.

Skanska’s first Public Private Partnership project in the U.S. – the Elizabeth River Tunnels in Virginia – An investment from Skanska Infrastructure Development generating a construction contract for USA Civil.

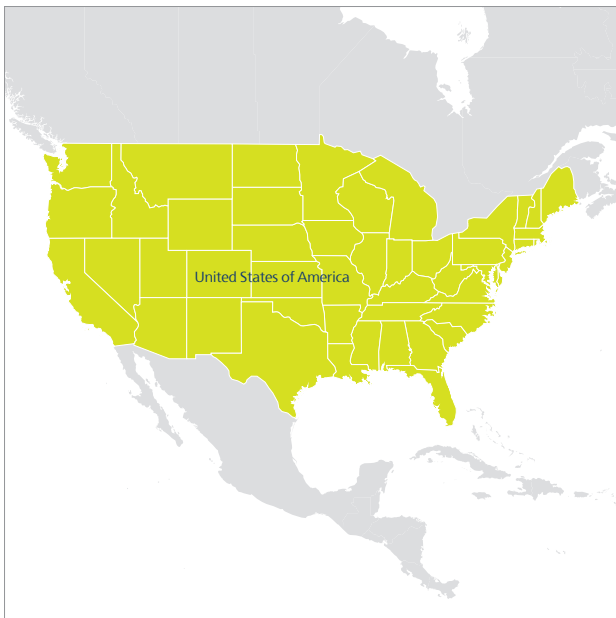

Value of orders in backlog generated in cooperation between Business Units:

ESS, Lund, Sweden

A state-of-the-art research facility in Lund, Sweden, won and now under construction by a joint venture between Skanska Sweden and Skanska UK.
